Progress in RE will be Monitored using these Key Questions:

How do we know that our curriculum is having the desired impact?

Formative Assessment

During lessons there is regular formative assessment to see whether pupils know more and remember Teachers observe and respond to pupils during a lesson, offering verbal feedback and prompting deeper th using questioning and retrieval, bringing core knowledge and skills into long term and working memory.

Summative Assessment

At the end of a unit of work, a teacher considers each pupil s progress against the expected end points, whether pupils aneorking at the expected standard, emerging or exceeding, through a summative assessme

It would be inappropriate to expectative depth of learning in a different religion to an aspect of Christianit where learning may have been built up over several years. A pupil studying their own religion or worldviev demonstrate learning that exceeds expectations, and which is not typical of what they know, understand do in relation to other elements of the syllabus.

In our schools, RE will have no more than one fifth of the curriculum time of English for example and should require a commensurate amount of time for summative assessment.
